

Hospital and Medical Facilities

FREEAXEZ USA™ – A new paradigm for raised access flooring

The FreeAxez low profile, all steel, access floor is an excellent choice for wire management in hospitals and medical facilities.

The innovative, revolutionary design incorporate:

- **High Strength All Steel** – high load-bearing, long-lasting.
- **Ease of Installation** – 1000 square feet per installer per day.
- **Simplicity of Use** – 5-second access to power, voice and data cabling.
- **Lowest Profile** of any raised floor available (1.6", 2.75").
- **Excellent Acoustics** – no footfall echo or sound transmission.
- **Immediate ROI** – instant payback realized during turnover and reconfigurations.
- **Sustainable Design** – the first low profile system listed in GreenSpec.
- **Addition by Subtraction** – eliminate power poles and exposed wires.

Make the most of your space with FreeAxez! Realize advantages in flexibility, aesthetics, ease-of-access, organization, sound quality, and sustainability. FreeAxez saves bottom line dollars, and will pay for itself time and again as your space needs change and grow!

FreeAxez can accommodate numerous wire, cable and conduit challenges.

FreeAxez has been installed in varied and critical applications at hospitals and medical facilities:

- Doctor's Offices
- Examination Rooms
- Records Area and Filing Rooms
- Nursing Stations
- Operating / Emergency Rooms
- Labs
- Server Rooms
- Teaching Hospitals
- Classrooms
- Operating Theatres
- Auditoriums
- 911 Centers
- Ambulance Dispatch
- Office Areas
- Conference Rooms
- Network Operations

FreeAxez can accommodate hoses and piping for fluid, gas, air and hydraulics delivery under the floor.

FreeAxez removes wires and power poles from sight!

Medical activity relies on visual display and monitoring of patients with cameras, x-ray, viewers, monitors, etc. FreeAxez eliminates power poles and the hazards of exposed wiring, contributing to a safer and more organized patient care environment.

FreeAxez adds to the learning environment by removing power poles.

In conference rooms, auditoriums and class rooms, desks have been replaced by wired tables and laptop computers. Blackboards have been replaced by projectors and monitors! You need to get power, data and audio-visual cables to this equipment. Power poles are not a good choice. FreeAxez can achieve a clutter-free environment with unobstructed views of the instructor and screen.

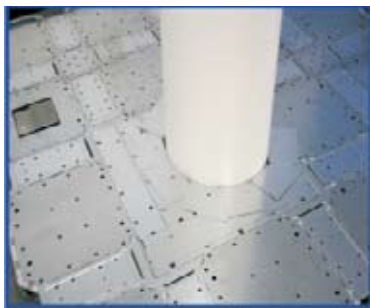

Great flexibility and accessibility for moves, adds and changes.

Floor plans, personnel, equipment, furniture and cabling are undergoing constant changes. FreeAxez makes changes to wiring and outlets quick, easy, and inexpensive: "5-second, no-tool easy access." To add equipment and wires; simply remove the floor tile and lift the channel plates along the wiring path: new wires are installed in seconds instead of hours!

FreeAxez has no equal for the fit-out of existing space!

Columns

Unlike other access floors, the FreeAxez gravity-held quick connect components are rapidly installed without any glues, screws or fasteners. Border components fill the gaps quickly without the need to cut any metal. No fumes or dust is created – an important consideration in hospital renovations. FreeAxez provides for efficient fit-out of irregular areas, including round rooms, curved walls, angled walls, columns, transitions, door jams, and vents.

Round Rooms

FreeAxez - every hospital and medical facility deserves this floor!

Top organizations like **Massachusetts Institute of Technology (M.I.T.), Johnson & Johnson, Sotheby's, Phelps Memorial Hospital, University of West Florida, US Naval War College – Newport RI, Oklahoma City University, Siemens, Northrop Grumman, Lockheed Martin, and all branches of the US Military** (to name a few!) have installed FreeAxez in varied and critical applications.

FreeAxez has quality representatives in your area who are available to briefly demonstrate the FreeAxez flooring system at your facility. Feel free to contact FreeAxez at 888-747-8515 to discuss how we might assist your organization in joining the growing family of clients who have made FreeAxez their wire management solution.
