

Museums, Displays and Exhibits

FREEAXEZ USA™ – A new paradigm for raised access flooring

The FreeAxez low profile, all steel, access floor is the optimal wire management platform for museums, cultural centers and displays!

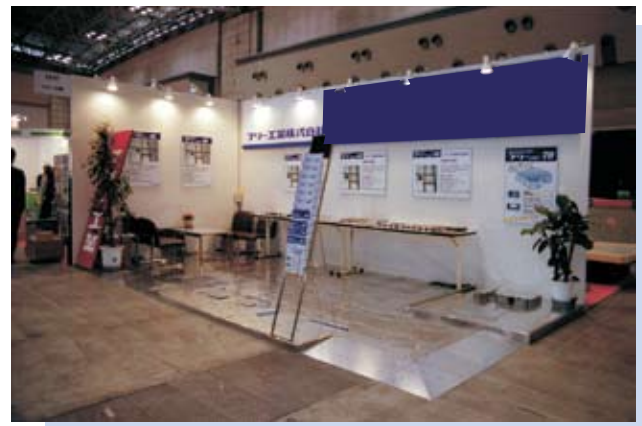

The innovative, revolutionary design incorporates:

- **High Strength All Steel** –high load-bearing, long-lasting.
- **Ease of Installation** - 1000 square feet per installer per day.
- **Simplicity of Use** – 5-second access to power, voice and data cabling.
- **Lowest Profile** - of any raised floor available (1.6", 2.75").
- **Portability**– easy assembly, disassembly, storage and re-use.
- **Immediate ROI** – instant payback realized during transport and re-configurations.
- **Sustainable Design** – the first low profile system listed in GreenSpec.
- **Addition by Subtraction** – eliminate power poles and exposed wires.

FreeAxez achieves ease of use, flexibility, and clutter-free organization!

Make the most of your space with FreeAxez! Realize advantages in flexibility, aesthetics, ease-of-access, organization, sound quality, and sustainability. FreeAxez saves bottom line dollars, and will pay for itself time and again as your space needs change and grow!

Unparalleled flexibility and ease-of-use for museum and exhibit designs.

20% or more of a museum facility is undergoing reconfigurations or overhaul at any given time. Displays and exhibits are constantly being set-up, disassembled and re-configured.

The modular FreeAxez quick-connect steel flooring system provides a flexible platform for housing cables, hoses and all types of conduit. Organized channels provide capacity for power, voice, data and audio-visual cabling as well as fluid, gas and hydraulic lines.

FreeAxez has no adhesives or fasteners which allows reconfiguration for the space in minutes without tools!

FreeAxez is the perfect platform for display and exhibit areas.

FreeAxez provides organized channel raceways 5" wide, 2½" tall every 15 inches. This is more than enough room to contain cabling and other conduits needed to support the application.

The unique FreeAxez ramp components allow seamless transition from the base floor up to the exhibit platform – FreeAxez angled slopes work beautifully at the corners.

As new exhibits arrive, the exhibit space floor is easily reconfigured, stored, or moved to other locations. Quick-connect features allow for rapid set up, tear down, and re-use.

FreeAxez is an ideal wire management platform for offices, training rooms, conference rooms, and theatres.

FreeAxez has no equal when fitting out existing space: the gravity-held quick connect components are rapidly installed without any glues, screws or fasteners. Open areas are installed at 1000 SF per installer per day, and the border components fill the gaps quickly without the need to cut any metal. FreeAxez provides for the efficient fit-out of irregular areas, including round rooms, curved walls, angled walls, columns, transitions, door jams, and vents.

FreeAxez - every museum and cultural center deserves this floor!

Top organizations like **Sotheby's**, **Massachusetts Institute of Technology (M.I.T.)**, **Johnson & Johnson**, **Siemens**, **Northrop Grumman**, **Lockheed Martin**, **Cherokee Nations Gaming**, and all branches of the **US Military** (to name a few!) have installed FreeAxez in varied and critical applications.

FreeAxez has quality representatives in your area who are available to briefly demonstrate the FreeAxez flooring system at your facility. Feel free to contact FreeAxez at 888-747-8515 to discuss how we might assist your organization in joining the growing family of clients who have made FreeAxez their wire management solution.
