

Training Rooms and Classrooms

FREEAXEZ USA™ – A new paradigm for raised access flooring

The FreeAxez low profile, all steel, access floor is an excellent choice for wire management in training rooms and classrooms.

The innovative, revolutionary design incorporates:

- **High Strength All Steel** – high load-bearing, long-lasting.
- **Ease of Installation** – 1000 square feet per installer per day.
- **Simplicity of Use** – 5-second access to power, voice and data cabling.
- **Lowest Profile** – of any raised floor available (1.6", 2.75").
- **Excellent Acoustics** – no footfall echo or sound transmission.
- **Immediate ROI** – instant payback realized during transport and re-configurations.
- **Sustainable Design** – the first low profile system listed in GreenSpec.
- **Addition by Subtraction** – eliminate power poles and exposed wires.

Make the most of your space with FreeAxez! Realize advantages in flexibility, aesthetics, ease-of-access, organization, sound quality, and sustainability. FreeAxez saves bottom line dollars, and will pay for itself time and again as your space needs change and grow!

FreeAxez is your wire management solution in the learning environment!

Floor plans, personnel, equipment, furniture and cabling are undergoing constant changes in the modern learning environment. The FreeAxez high capacity channel raceways keep all wiring organized and traceable. FreeAxez saves costs, and eliminates exposed wires and cables, core-drilling, trench-cutting, poke-throughs, power poles, and wall and ceiling wires.

Exceptional flexibility in layout options for multi-use training rooms.

In corporate multi-use training rooms and conference rooms, layouts are changed daily. Tables, desks and chairs are on wheels for flexibility. One day you'll need a boardroom style, the next day a theatre, the next a horseshoe, etc. FreeAxez enables rapid layout changes, eliminating exposed cables from the wall!

FreeAxez brings technology to the classroom!

In classrooms, the old schoolroom desk is replaced with wired tables and laptop computers! The old blackboard is now a projector and screen, or a flat screen monitor. Power poles aren't an option – we need unobstructed views of the instructor and screen.

FreeAxez delivers perfectly for this environment. FreeAxez brings power, voice, data, and AV to the student, while avoiding the clutter of poles and the tripping hazard of cables plugged into the wall!

FreeAxez is the only green sustainable low profile access floor!

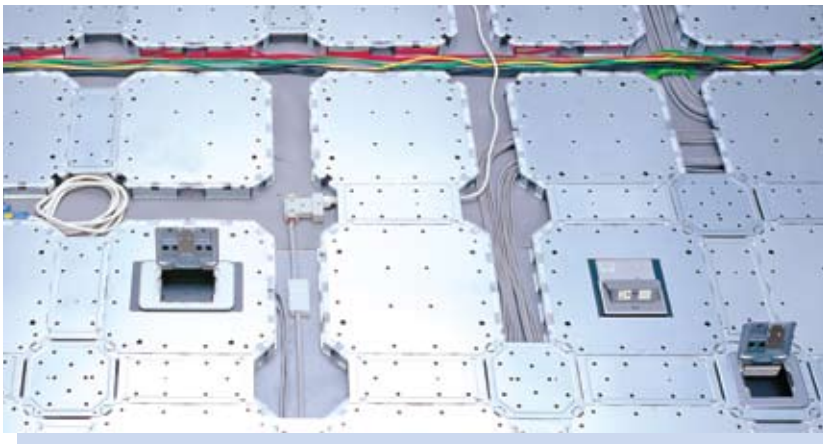

FreeAxez is the only access floor that is UL-listed, and the only low-profile system listed in the GreenSpec Directory of sustainable building products. FreeAxez provides designers and building owners with LEED points in four categories, and is 100% recyclable.

FreeAxez is quiet and user friendly!

Gravity-held components lock together without adhesives, screws, or fasteners. FreeAxez does not attach to the building, and can be easily disassembled and reinstalled as required.

FreeAxez has been acoustically engineered to be solid and virtually silent. You will not know you are walking on top of a raised floor!

FreeAxez can make changes in seconds, without tools! Simply remove the floor tile and lift the channel plates by hand... new wires are installed in seconds instead of hours!

FreeAxez - every training room and class room deserves this floor!

Top organizations like **Massachusetts Institute of Technology (M.I.T.), Johnson & Johnson, Sotheby's, Penn State University, Auburn University, University of West Florida, US Naval War College – Newport RI, Oklahoma City University, Siemens, Northrop Grumman, Lockheed Martin, and all branches of the US Military** (to name a few!) have installed FreeAxez in varied and critical applications.

FreeAxez has quality representatives in your area who are available to briefly demonstrate the FreeAxez flooring system at your facility. Feel free to contact FreeAxez at 888-747-8515 to discuss how we might assist your organization in joining the growing family of clients who have made FreeAxez their wire management solution.
