

FREEAXEZ USA™

The Premier Low Profile Access Floor

Product Presentation

FreeAxez is an award winning, patented, all steel, quick-connect, low profile access floor that breaks the mold of the traditional raised access floor. FreeAxez provides unparalleled capacity and flexibility for the modern office and high technology environment, saving life cycle costs and improving workplace efficiency.

Applications

FreeAxez is designed for the general office environment, not just for data centers or computer rooms; it is intended to be installed under every desk. FreeAxez is ideal for the distribution of power, voice, and data cables for new construction as well as retrofit. Over 20 million square feet has been installed worldwide for a diverse set of applications such as the *general office, conference rooms, training rooms, retail, hospitals, theatres, casinos, museums, labs/manufacturing centers, TV/radio studios, banking centers, emergency dispatch, court rooms and financial buildings.*

Features

ALL STEEL: Double 16 gauge zinc galvanized steel. High durability and high strength.

QUICK CONNECT: Components snap together - no glue, screws or fasteners.

LOW PROFILE: Available in 2 models - 1.60 or 2.75 inches high.

HIGH CAPACITY: Large cable capacity with organized channels for cable runs.

Benefits

- Installs 1000 square feet per installer per day.
- Feel is solid, not bouncy like traditional pedestal raised floors.
- Least disruptive to existing surfaces; saves vertical space and real-estate.
- Removes the cost for electrified furniture systems.
- Eliminates power poles, and saves in moves, adds and changes.
- Eliminates concrete cutting and drilling.
- Depreciable in 7 years - immediate return on investment (ROI).
- No railings or edges needed for ramps.
- No concrete, filler, wood or plastic.
- GreenSpec Listed, LEED credits, reusable, recyclable, refundable.
- Certified through third-party qualification tests: load, electrical, fire and earthquake. UL listed. MEA approved in NYC. Class A per ASTM-E84.

Other Products Offered

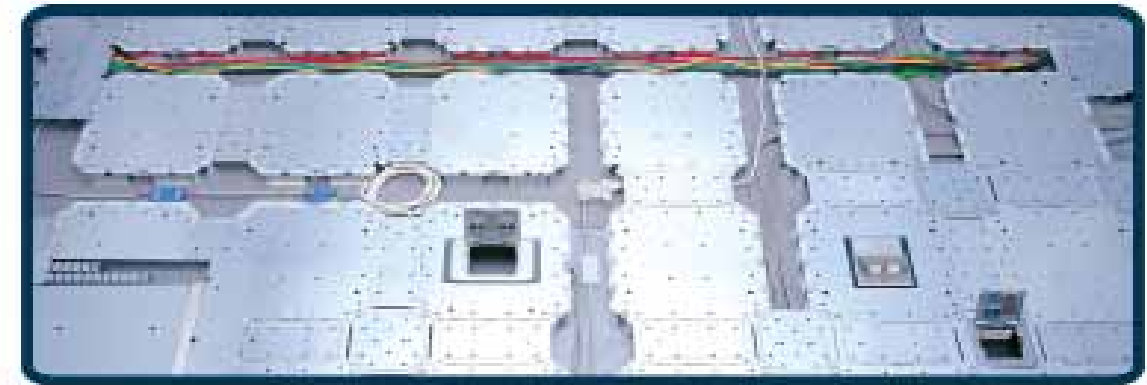

Wood finished systems for lobbies, executive offices and conference rooms.
