

# Fit-out Flexibility

**Gridd is an ideal adaptive cabling distribution system that accommodates any contour.**

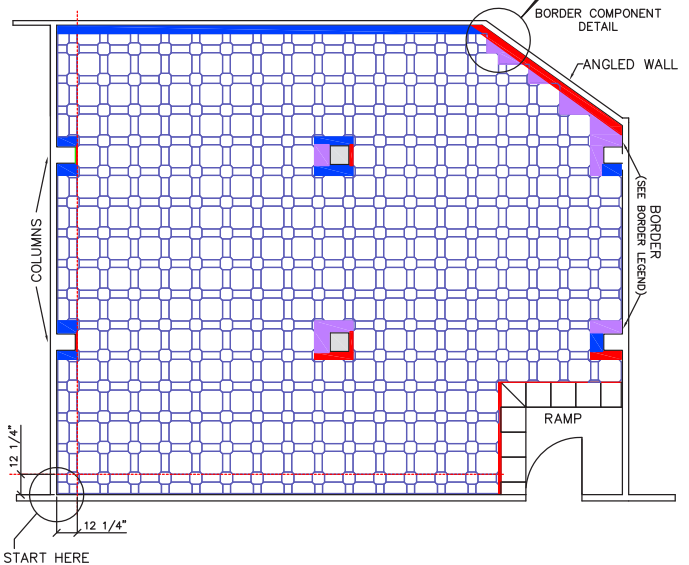

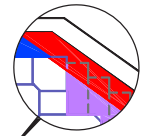

Gridd provides for efficient fit-out of round rooms, curved walls, angled walls, columns, transitions, door jams, vents, and irregular areas.

This flexibility is accomplished without any glues, screws, or fasteners. Gridd's border components effortlessly fill all gaps, making cutting and scribing of base units unnecessary.

## Layout planning

### BORDER LEGEND:

BORDER GAP	FILL WITH
A	END COVER + REINFORCING BAND
B	L-TYPE
C	L-TYPE BORDER + END COVER
D	(2) L-TYPE BORDER + END COVER
